DUNROAMIN' STRAY AND RESCUE CONSENT FOR SERVING AS A VOLUNTEER

I, ______, understand that I will be assisting as a volunteer in the operations of DunRoamin' Stray and Rescue in caring for their stray cats which are currently housed at the Florenceville Veterinary Clinic, Riverbank, NB;

I understand that there are inherent risks associated with spending time with stray animals including: (1) animals biting or scratching humans; (2) slips and falls; (3) transmission of diseases or infections from animals to people (zoonotic diseases); (4) allergies; (5) transference of diseases or infections to my own animals; and (6) other less common risks. It is recommended that the vaccinations of my own animals be up to date before I become a volunteer in order to decrease the chance of transmission of infectious diseases to other animals.

I agree that anything I learn about DunRoamin' patients or clientele must be held in utmost confidence and such information may not be discussed outside of DunRoamin' Stray And Rescue nor used in any publication, blog, interview, or other public manner.

I accept the risks and terms of this agreement and agree to hold DunRoamin' Stray And Rescue harmless for any injury or illness I might suffer as a result of time spent serving in the capacity of volunteer.
